

# Membership Agreement

## For TRC's ACT Fleet Forum

**A Fleet-Only Educational Network**

[WWW.ACTFLEETFORUM.COM](http://WWW.ACTFLEETFORUM.COM)

Managed by:

In Partnership with:

## WHO BENEFITS FROM ACT FLEET FORUM:

Chief Technology Officers, Chief Operating Officers, Fleet Managers, Maintenance Managers, Sustainability Teams, Innovation Leaders, Fleet Service Teams, etc.

**More than 70 percent of representatives are Director or above.**

**...AND MORE LIKE YOU JOINING EVERY DAY.**

## HOW FLEETS BENEFIT

### Regular Online Discussions

Monthly fleet calls to share best practice with other fleets or with developers of cutting-edge technologies.

### Hands-on Workshops

Exclusive visits or virtual events of fleet and vendor facilities to see the first and largest deployments of cutting-edge advanced clean vehicle technologies.

### Complimentary ACT Expo Participation

Passes to join more than 2,700 fleet managers and thousands of industry experts at the largest advanced fleet event in North America.

### Regulatory and Funding Updates

Regular updates on policies impacting fleets and funding opportunities to adopt clean technology. Access to TRC policy and funding experts for Q&A.

### 24/7 Access to Lessons Learned

Exclusive access to recordings, briefs on lessons learned, and slides from all previous discussions and workshops. Includes schedule of upcoming discussions to share with colleagues.

### Access Benchmarking Data

Unique access to datasets provided by industry leaders and refined by TRC experts for easy decision-making.

### Peer-to-Peer Fleet Networking

Curated networking opportunities with North America's largest and most innovative fleets.

## HIGHLIGHTS FROM OUR FIRST SIX YEARS

### Lessons and tech preview discussions on:

State of the Market and Regulations • Autonomous Vehicles  
Predictive Maintenance • Connected Technologies • Leasing and Landlord  
Troubleshooting • Efficiency & Hybrid Technologies • Renewable Diesel  
GHG Accounting for Renewable Fuels • Total Cost of Ownership (TCO)  
MHD Electric Vehicles • Utility Charging Programs • Microgrid Projects  
AFV End of Life • CNG Best Practice • Using RNG • Hydrogen Outlook  
South Coast's ISR Rule • Heavy Duty Hydrogen Demo  
Wireless Charging • Megawatt Charging Standard  
California's Low Carbon Fuel Standard (LCFS)

*As an ACT Fleet Forum member, you can search a library of all past and future slides, briefs, and recordings on these topics.*

## PREVIOUS DISCUSSIONS AND WORKSHOPS (50+)

All slides, recordings, and lessons learned briefs are saved on the member-only online library including these highlights:

### Workshop: PepsiCo's Near-Zero Emission Facility

Visit one of the country's first near-zero fleet facilities with technologies from Tesla and other leading OEMs and infrastructure providers.

---

### Drop-in Charging Options

Learn about the new emerging solutions for drop-in charging that reduce time / cost and increase convenience for leased and owned properties.

---

### Leasing and Landlord Troubleshooting for Infrastructure

A discussion with a warehouse leader about how to work with landlords of leased properties to troubleshoot infrastructure installation.

---

### State of the Market and Regulations

Discussion with TRC and fleet members to reflect on the rapid transformation and uncertainties in the market and regulations.

---

### Workshop: Scaling Zero-Emission Vehicle Fleets

Early adopter fleet and technology expert discussions on piloting – then scaling – two zero-emission heavy-duty vehicle types: battery electric vehicles and hydrogen fuel cell vehicles.

---

### Biofuel Solutions for Fleets

Discussion with a leading biofuel technology developer to learn about the opportunities to use higher blends of biofuel - up to 100%.

---

### First Fuel Cell Electric Vehicle Deployments

Visit a hydrogen fueling station for Class 8 demonstrations at the Port of Long Beach, CA to learn about the state of the technology and outlook. Hear first-hand from fleets with experience on benefits and challenges.

## RECENT CALENDAR OF EVENTS

**Workshops: Travel Planning Required.**

### Biofuel Solutions for Fleet Sustainability

8/27/2024

Discussion with a leading biofuel technology developer to learn about the opportunities to use higher blends of biofuel – up to 100%.

### Modular, Mobile, and Temporary Charging Systems

9/26/2024

Technology overview from a leading provider, with case studies for fleets in need of temporary and modular charging systems across owned and leased real estate portfolios.

### Charging Away from the Depot

10/24/2024

Review of unique charging solutions, timing considerations, and rental options to be incorporated into nearby depot operations.

### US Election Implications for Fleets

11/21/2024

Hear perspective from TRC's policy and compliance experts on implications for national and California regulations from the U.S. federal election results.

### Depot Charging Deep Dive

1/23/2025

Detailed data review and individual conversations with nine (9) leading charging infrastructure developers.

### Hydrogen Market Outlook; From Federal Planning to OEM Production

2/20/2025

Conversation with a hydrogen technology leader on the developing market and outlook for hydrogen production, vehicles, and early fuel cell deployments.

### Carbon & GHG Accounting for Renewable Fuels

3/20/2025

Overview of carbon accounting practices to maximize the emissions-reductions benefits of renewable fuels, including carbon-negative fuels.

### Streamlining Fleet Electrification

June 2025

Visit a site by one of the largest early adopter fleets and a charging laboratory to learn best practice to reduce cost, complexity, and time of fleet electrification projects.

### Solving Charging Interoperability, Grid Constraints, and Uptime

Share lessons from direct fleet engagements, showcase a case study with the City of Fort Collins, and introduce tools like Intelligent Grid Connect to manage grid constraints and improve charging interoperability and uptime across diverse sites and hardware.

### \*New calendar for Jul 2025 - Jun 2026 in development now

It will include workshops and discussions on renewable fuels, autonomous vehicles, efficiency, and more.

## BECOME AN ACT FLEET FORUM MEMBER

Join other leading fleets who use advanced technology to discuss, see, touch, learn, and preview technology. Fleets who participate agree to showcase their own lessons from implementing advanced clean technology projects, actively engage in facilitated discussions, and recommend future topics. Membership recurs annually, cancel any time.

### MEMBER PRINCIPLES

- |  |   |
|--|---|
| <ul style="list-style-type: none"> <li>✓ ADVANCED TECHNOLOGY IN USE OR ON ORDER FOR FOUR (4) OR MORE VEHICLES</li> </ul> | <ul style="list-style-type: none"> <li>✓ COMMITMENT TO SHARE CASE STUDIES AT LEAST ONCE ANNUALLY</li> </ul>           |
| <ul style="list-style-type: none"> <li>✓ AGREEMENT NOT TO SOLICIT BUSINESS FROM OTHER MEMBERS</li> </ul>                 | <ul style="list-style-type: none"> <li>✓ FLEET MANAGEMENT/OPERATIONS PROFESSIONALS <i>(NO SALES TEAMS)</i></li> </ul> |

- |   |   |
|---|---|
| <ul style="list-style-type: none"> <li>✓ EXCLUSIVE ACCESS TO RECORDINGS, SLIDES, LESSONS</li> </ul> | <ul style="list-style-type: none"> <li>✓ FUNDING AND POLICY UPDATES</li> </ul>  |
| <ul style="list-style-type: none"> <li>✓ MONTHLY WEB DISCUSSIONS</li> </ul>                         | <ul style="list-style-type: none"> <li>✓ 50+ HOURS OF EDUCATION</li> </ul>  |
| <ul style="list-style-type: none"> <li>✓ HANDS-ON WORKSHOPS</li> </ul>                              | <ul style="list-style-type: none"> <li>✓ 3 ACT EXPO PASSES<br/><i>(FULL CONFERENCE PASS - A \$2,500 VALUE)</i></li> </ul> |

### ANNUAL MEMBERSHIP BENEFITS
